

Baba

In the early 1800's when travelers started to step ashore to the area called "The Peninsula", what is current day southern Thailand, the majority of them were Indians, Hokkien Chinese & Portuguese.

Now living in a foreign land they began to work very closely with the earlier settlers. This was to be due to the fact that all the settlers, old & new, shared a common goal of creating a better life in a new land.

Over time, relationships within the settlements were imminent. "Baba" was the name given to male offspring & "Nyonya" to the female. These children were the result of different people, cultures, ideas, philosophies & tastes coming together & creating something truly unique.

We've stayed true to this union created & [Baba Poolclub](#) is the culmination of it all.

Sit back, rock away & enjoy the tastes you will never forget...
